

# 双优

## 马克思主义学院

为引导我校学生真心喜欢思政课和积极参与实践活动，同时鼓励先进，树立榜样，马克思主义学院每学年对在“实践活动”和“期末总成绩”两个项目中表现突出的学生评出优秀予以表彰。根据马克思主义学院“双优”评选细则，现将2018—2019学年“双优”名单公布如下：

### 实践活动优秀名单

- |                                                                                                                                                                                                                            |                                                                                                                                                                                                             |                                                                                                                                                                                                                                          |                                                                                                                                                                                                                                |                                                                                                                                                                                                                                          |                                                                                                                                                                                                                                         |                                                                                                                                                                                                                                  |                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                  |                                                                                                                                                                                                                                                  |                                                                                                                                                                                                                                               |                                                                                                                                                                                                                                                |                                                                                                                                                                                                                            |                                                                                                                                                                                                                          |                                                                                                                                                                                                                     |                                                                                                                                                                                                                                           |                                                                                                                                                                            |
